- Why doesn't everyone have an IT professional?
- Convenience
- Save money with routine maintenance
- More information

## Advantages of a Subscription

I often wonder why doesn't everyone have a tech support professional. Imagine the money you would save, imagine the convenience of not having to go without your device or take it somewhere to have it fixed. Would you believe it if I told you that you actually save money with routine maintenance of your computer and devices?

### Why doesn't everyone have an IT professional?

Because it could be so expensive, you may not consider it possible. But now, you can have tech support available when you need it for only \$2.00 a minute or \$240.00 per year and that is less than 11 cents per day!

### Convenience

All you need is an appointment, you don't have to take your computer anywhere. As long as you have an internet connection tech support is an email away. The most secure servers available protect your privacy and keep you safe.

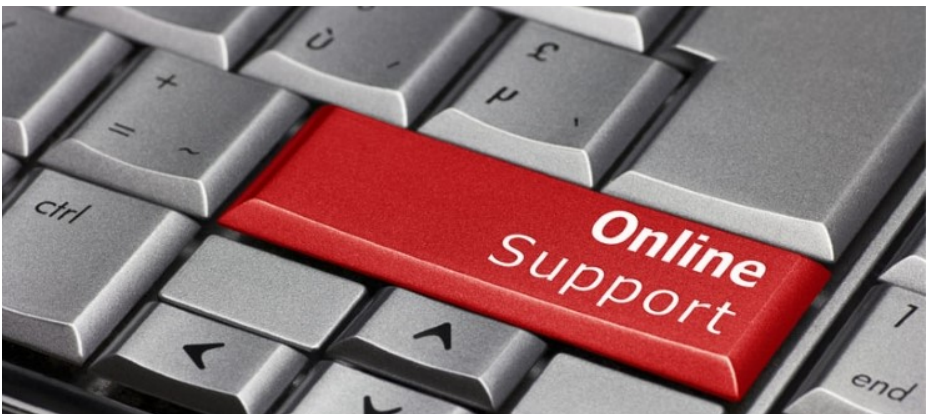

### Save money with routine maintenance

Your subscription will include 3 tune ups each

#### Customer quote:

*"Prompt response, fair prices and reliable service. We have called PC Assistance our personal IT professional for years and we will never change. No more hassle, no more computer worries."*

**GET THE PERSONAL ATTENTION YOU DESERVE!**

# PC ASSISTANCE

GraneeGeek Online Technical Support

Previously only available to existing customers now extended to new members!

## NEW DEAL!

PC Assistance will refund you a \$100.00 if you have a current subscription and when you refer someone and that person signs up for annual service.

What?! Yes, you can earn a refund of \$100 per person when they complete the sign up procedure for annual service which includes their payment for that annual subscription.

I challenge you to help Someone you know using This New Deal and see How much you can benefit!!

For example, if you have a subscription for two computers, and you have four people sign up, you will get your subscription absolutely FREE because you will receive your \$100 per person.

If you have one computer then you might pay only \$40 for your subscription, when you have two people sign up.

You may share your gain with your friend but that is up to you. In other words, you have control of your subscription cost, get together with your friends or family and split the refund with them, it is your choice.

Note: Refunds cannot exceed the amount of the original subscription or \$400 for two computers.

**GET THE PERSONAL ATTENTION YOU DESERVE!**
